

Miniproject Comments

Sensor Miniproject

Observed Git usage: sensor miniproject

Estimated students using Git like:

- CLI / GUI: 49%
- Web (edit): 34%
- Drag and drop (web): 17%

GitHub usage

- Web interface
 - Make 100's or 1000's of difficult to read commits
 - It is really the same code running on device
- Drag and drop (web)
 - Same comments as above

Idea is to use desktop client or command line

* Difficult to do projects successfully with GitHub code web interface
